100 Years of Success
 Individuality - Experience - Flexibility

- As merchant we operate **independently from manufacturers**. To strengthen our position we have been cooperating successfully with our affiliates for the last decades. We highly appreciate our partnerships which finally are beneficial for our customers.
- **Quality and supply availability have highest priority.** All our affiliates are certified pursuant ISO 9001/9002, TÜV and European Quality.

- The **comprehensive product range** enables us to supply customers of **various industries**. The references are diverse. Besides lumber mills also engineering and mechatronics companies and even public institutions can be mentioned.

BEHAM
100 Years of Success

- 1 Bearing Engineering
- 2 Drive Engineering
- 3 Sealing Technology
- 4 Standard Parts
- 5 Linear Guidance Systems
- 6 Maintenance

- As **system supplier** we offer **global solutions for every demand**. Moreover we develop **individual technical solutions for complex applications**.
- A team of **40 open minded employees** is staffed to deliver solutions based on practical and theoretical knowledge, experience and professional know-how.

Get yourself an impression! We are looking forward to showing you around our site! (www.beham.com)

BEHAM has been operating in the industries bearing engineering and drive engineering for more than 60 years and since its establishment it has been subordinated a constant growth and change process. The acquisition of Suschnik & Wächter which was founded in 1909 contributes to 100 years of our group's success through individuality, experience and flexibility.
